

SFM

Steel Fabrication Manufacturer

2025

WELDED STEEL FABRICATIONS

for machine building and industrial equipment

Committed To Quality.
Committed To You.

ABOUT THE COMPANY

Year of foundation

2010

Ownership

100% private owned

Business area

“Build to print” subcontractor in welded steel fabrications for machine building and industrial equipment

ABOUT THE COMPANY

Location

Jelgava, Latvia

45km from the capital Riga

ABOUT THE COMPANY

Employees

135

Production premises

11 000m²

White Collar

25

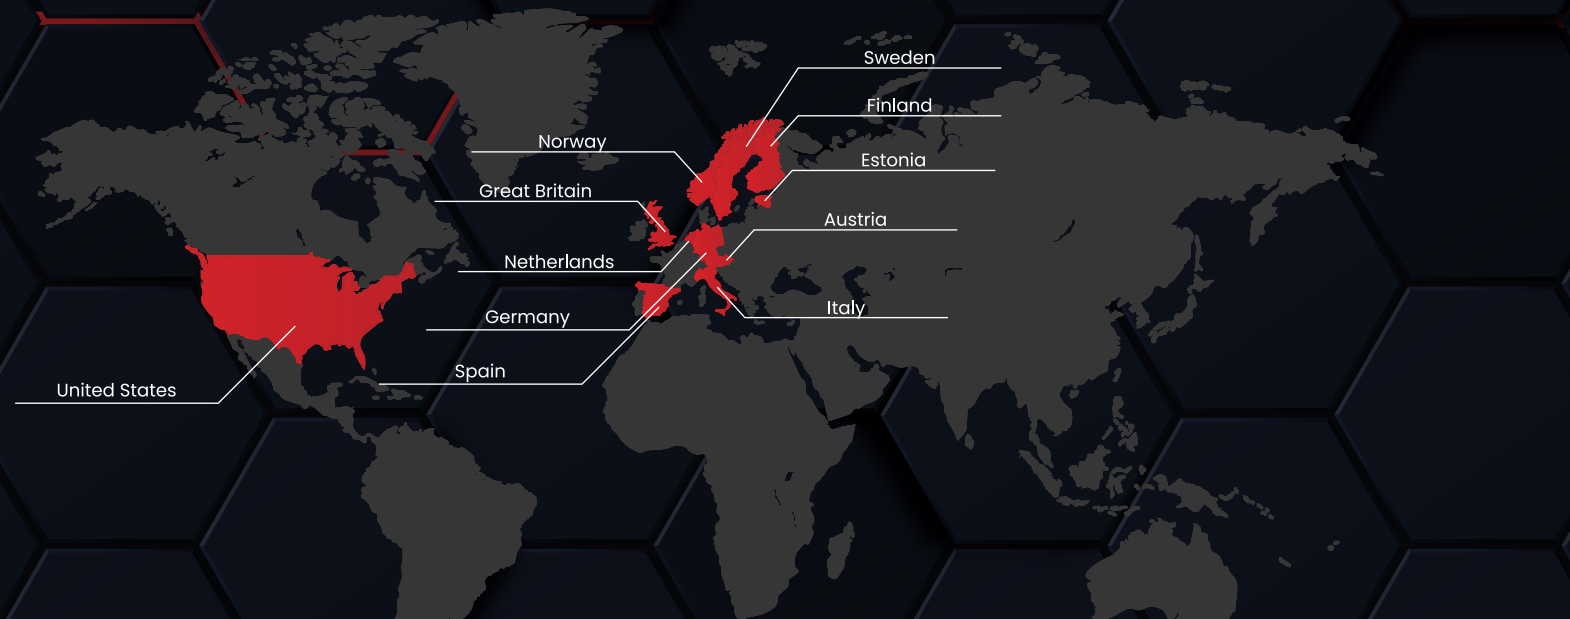

Blue Collar

110

Production Output

OUR MARKETS

PRODUCTION CAPABILITIES

Lifting capacity

Overhead crane lifting capacity – up to 30t

Component preparation

CNC Laser cutting (fiber 6kW)

CNC bending (220t)

CNC turning

CNC Milling

3D tube bending

**Sawing, punching, rolling, cutting, drilling,
tapping, turning**

Machining After Welding

Using Trusted Subcontractors

PRODUCTION CAPABILITIES

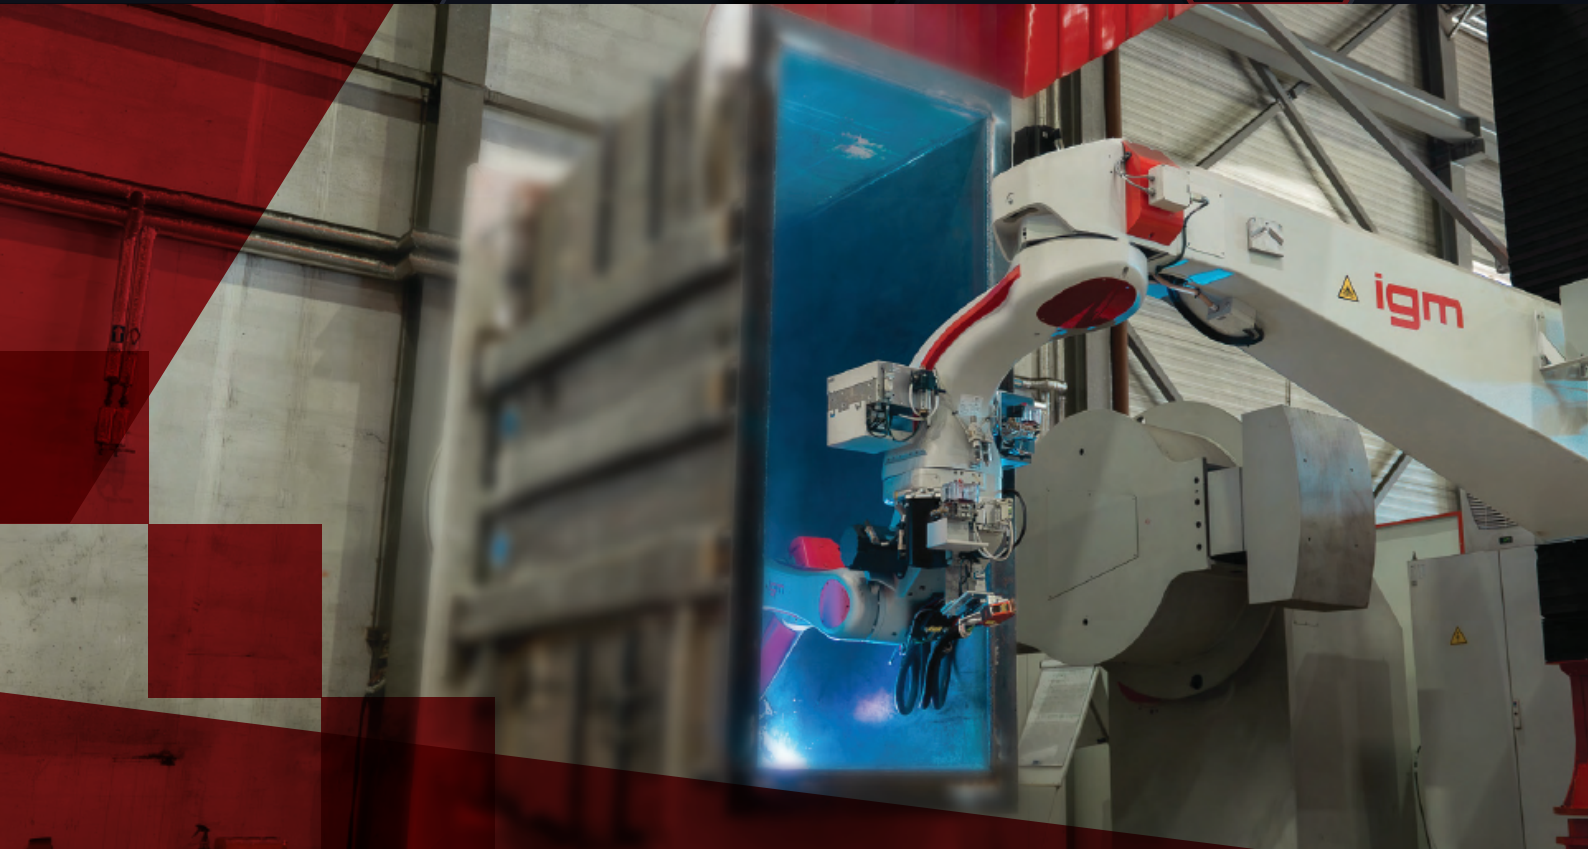

Welding

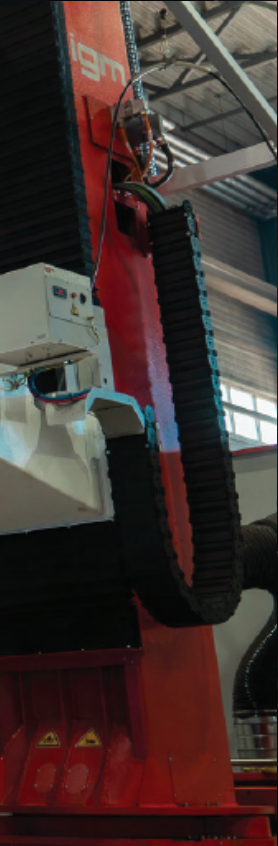

MIG/MAG welding

Robot welding

TIG welding

60+ certified welders

PRODUCTION CAPABILITIES

Shotblasting

Shotblasting chamber | 6x6x18m

Spray painting

2 painting booth in size | 6x6x16m each

Final assemblies

Mechanic, electric, hydraulic, pneumatic assembly

Testing

Final product testing

QUALITY

- 8 person quality department
- Quality department buget – 30% from whole administration block
- 3 dimesional scanning with most advanced technology in whole BALTICS from CREAFORM

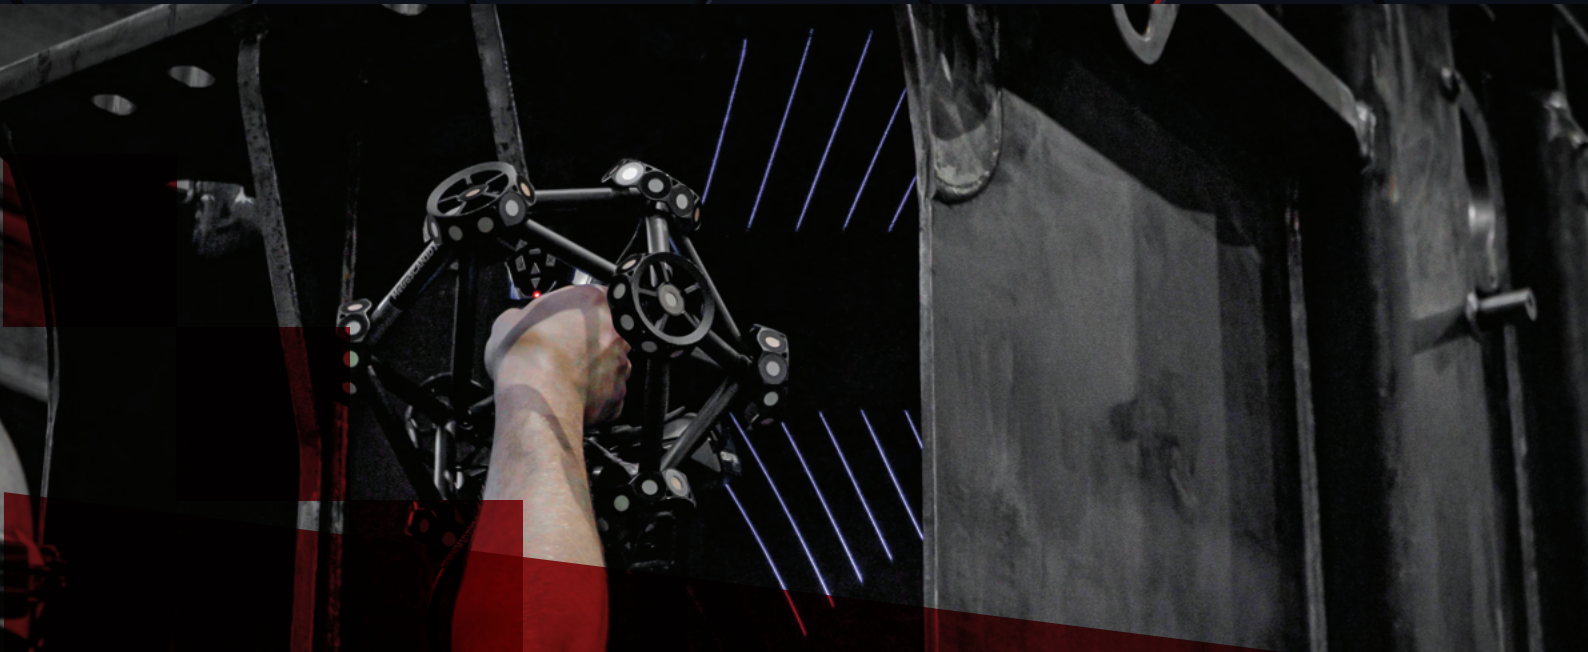

QUALIFICATIONS

- **Magnetic Testing (MT) EN ISO 9712 Level 2**
- **Visual Testing (VT) EN ISO 9712 Level 2**
- **Penetrant Testing (PT) EN ISO 9712 Level 2**
- **Ultrasonic Testing (UT) EN ISO 9712 Level 2**

CERTIFICATES

- **ISO 9001:2015**
- **ISO 14001:2015**
- **ISO 50001:2018**
- **EN 1090-2:2008+A1:2011**
- **ISO 45001:2018**
- **LVS EN ISO 3834-2:2006**

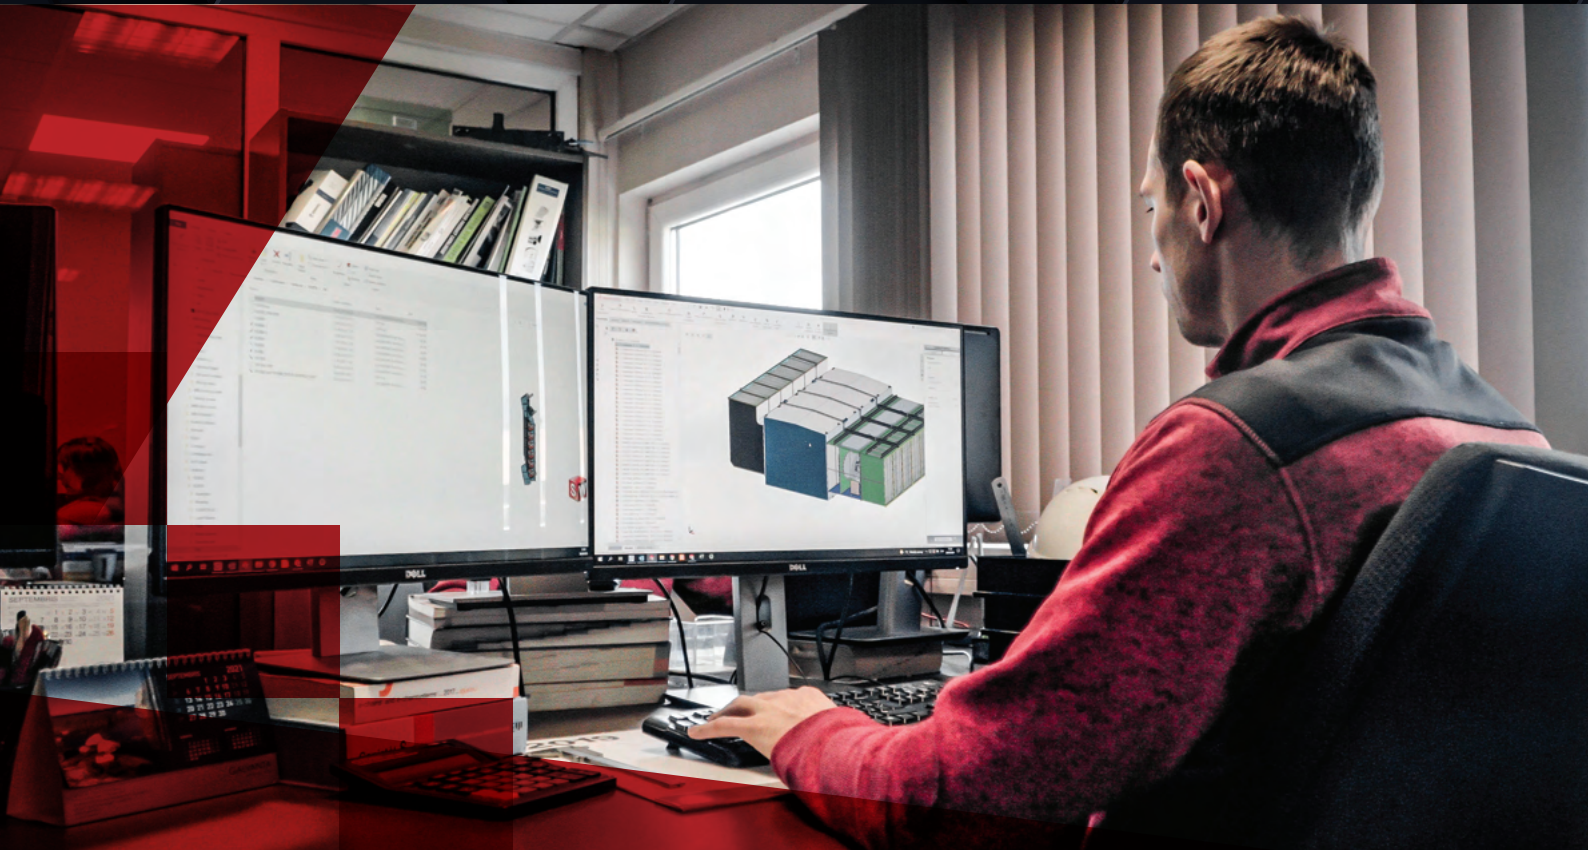

OUR CONTRACTS

- Transformer Tanks and covers
- Military vehicle fabricated components
- Chassis for mining industries
- Enclosures
- Coolers for power generators
- Industrial Mixers
- Oil Tanks
- Fabrications for Offshore

ENGINEERING

- Everything built under customer design
- 3 engineers in the company
- SolidWorks – Solid Edge – AutoCad – VXinspect
